Contents of Volume 8 1990

Number 1 1990

Instructions to Authors iv
Newsline 1
Calendar 3

M.L. Schmidt
Preoxidation Prior to Gas Carburizing: Theory and Its Effect on Pyrowear[R] 53 Alloy 5

G.A. Fuller
Atmosphere Carburizing at 927°C (1700°F) for Distortion Control 21

H. Walton
Deep Case Gas Carburizing–Optimization of Process Parameters 27

D.V. Doane
Carburized Steel—Update on a Mature Composite 33

T. Réti, M. Réger, and M. Gergely
Computer Prediction of Process Parameters of Two-Stage Gas Carburizing 55

S. Shivkumar, S. Ricci, Jr., C. Keller, and D. Apelian
Effect of Solution Treatment Parameters on Tensile Properties of Cast Aluminum Alloys 63

K.T. Raić and Z.V. Popović
Modification of the Finite Difference Method Applied to Transfer Phenomena in Heat Treating 71

Number 2 1990

Instructions to Authors iv
Newsline 75
Calendar 79

T.A. Deiters and I. Mudawar
Prediction of the Temperature–Time Cooling Curves for Three-Dimensional Aluminum Products during Spray Quenching 81

S. Preston
Influence of Vanadium on the Hardenability of a Carburizing Steel 93

G.E. Hicho and R.J. Fields
Effects of Varying Austenitizing Temperature and Cooling Rate on the Ability of HSLA-80 Steel to Achieve Impact Properties Comparable to HSLA-100 Steel 101

Y. Sakuma, D.K. Matlock, and G. Krauss
Mechanical Behavior of an Intercritically Annealed and Isothermally Transformed Low C Alloy Steel with Ferrite–Bainite–Austenite Microstructures 109

Y. Deng, P. Mao, and J. Xu
Tempering Process of Alloy Ti–5Al–1Mo–2Nb–3Zr 121

B. Buchmayr and J.S. Kirkaldy
Modeling of the Temperature Field, Transformation Behavior, Hardness and Mechanical Response of Low Alloy Steels during Cooling from the Austenite Region 127

K.S. Chapman, S. Ramadhyani, and R. Viskanta
Modeling and Parametric Studies of Heat Transfer in a Direct-Fired Batch Reheating Furnace 137

G.F. Bobart
Technical Note: Induction Heat Treating Processes for Near-Net Shape Applications 147
